

AI Document Assistant - User Guide

Overview

The AI Document Assistant enables users to upload documents and receive real-time suggestions to improve grammar and style. Suggestions are presented clearly, with options to accept or reject each one, streamlining the editing process.

Uploading a Document

1. Click the 'Choose File' button at the top of the page.
2. Select a document in one of the supported formats:
 - .txt (Plain Text)
 - .docx (Microsoft Word)
 - .pdf (PDF Document)
3. The system will automatically extract and analyze the content.

Reviewing Suggestions

- The interface presents a side-by-side view: original content on the left and suggestions on the right.
- Suggestions are highlighted and editable.
- You can either accept a suggestion to apply it or reject it to retain the original text.

Color Legend

- Yellow - Suggestion pending review
- Green - Accepted suggestion
- Red - Rejected suggestion

Important Notes

- Documents should not exceed 19,000 characters to ensure optimal performance.
- A loading indicator is shown during analysis.
- Uploading a new document will clear the previous preview and suggestions automatically.
